

# Chewy Release

I \_\_\_\_\_ give Heel.Sit permission to offer my dog \_\_\_\_\_ a chew while kenneled. I understand that even with the best precautions there are some risks to offering chews to dogs and release Heel.Sit from responsibility if my dog chokes or experiences tummy issues due to the chew. We have carefully chosen chews that are unlikely to break teeth, have quality ingredients, and are digestible so choking, blockagesj, or tummy problems shouldn't be an issue but dogs are chaos and masters of the unexpected.
